

Vapor Recovery System Alternative (VRSA) Questionnaire

Completion of this questionnaire will allow preliminary screening of potential sites that may benefit from installation of the Vapor Recovery System Alternative (VRSA)

- 1. Gas flow rate _____ MMscfd
- 2. Condensate production _____ BOPD
- 3. Water production _____ BWPD

Describe process equipment and tanks currently on location. Use additional pages if necessary.

- 4. Inlet separator Oper temp _____ °F Oper press _____ psig
- 5. Flash separator Oper temp _____ °F Oper press _____ psig
- 6. Treater Oper temp _____ °F Oper press _____ psig
- 7. Is a flare on location? Yes _____ No _____
- 8. Are oil and water collected in separate tanks? Yes _____ No _____
- 9. Are oil and water tanks vented to common header? Yes _____ No _____
- 10. Attach an analysis of vapors captured at inlet separator pressure.
- 10. Attach an extended analysis of liquids (through at least C12) captured at inlet separator pressure.
- 11. Utilities available electricity _____ inst air _____
- 12. Site altitude _____ feet above sea level
- 13. Site location _____

14. Attach photos and sketches of the location.

- 15. Name _____
- 16. Title _____
- 17. Company _____
- 18. Address _____

- 19. Telephone _____
- 20. Email _____
